

**Mercredi 4 octobre 2023**

14h30 : S. Nicaise (Céramaths, Univ. Polytechnique Hauts-de-France)

Stability properties of dissipative evolution equations with nonautonomous and nonlinear dampings

**Mercredi 18 octobre 2023**

14h30 : T. Boulmezaoud (LMV, Univ. UVSQ-Paris Saclay)

Sur un résultat surprenant en analyse convexe

**The International Conference on Mathematical Modelization,  
Control and Related Fields (ICMM CR'2023)**

**01 November – 04 November 2023, Fez, Morocco**

<https://icmm23.sciencesconf.org>

**Mercredi 15 novembre 2023**

14h30 : M. Benjema (FSS)

Insight into the discontinuous Galerkin method

**Mercredi 29 novembre 2023**

14h30 : M. Akil (Céramaths, Univ. Polytechnique Hauts-de-France)

Stability results for novel serially-connected magnetizable piezoelectric and elastic smart-system designs

**Mercredi 13 décembre 2023**

14h30 : F. Shel (Lab-ACPDE, IPEIS)

Stability of a thermoelastic system with delay
